BRAND STORY

In the hustle and bustle of the city, we listen to the voices of every professional woman, understanding their pursuit of quality and comfortable living. Thus, we were born - a mobile office storage brand exclusively crafted for freelancers and professional women on frequent business trips – Onfriday

We advocate a lightweight business style, empowering women to unleash their potential and enjoy a seamless office experience. Using genuine leather and high-quality microfiber, we meticulously craft each product, ensuring every user feels our respect and care.

Our product line encompasses laptop bags, data cable organizers, desktop office essentials, stationery, and travel accessories, catering to the diverse needs of freelancers and businesswomen. Choosing us is not just about acquiring high-quality office storage, but also embracing a new office philosophy and lifestyle.

CORE VALUES

Portability:

Our products all adopt slim design and lightweight materials. Whether on a business trip, traveling or daily commuting, they can be easily packed into luggage and used at any time.

Functionality:

In addition to the large storage space and convenient storage structure of the product, our computer sleeve bag also conforms to the ergonomic design concept. The computer stand behind the bag can adjust the position of the computer screen and the human eye from multiple angles. . Reduce the pressure on the cervical spine caused by lowering your head when working, making people's work healthier and more comfortable.

Durability:

Mobile office supplies need to withstand frequent carrying and use, so we choose high-end leather materials and production processes to ensure that the products can still maintain good performance and appearance after long-term use.

Environmental protection:

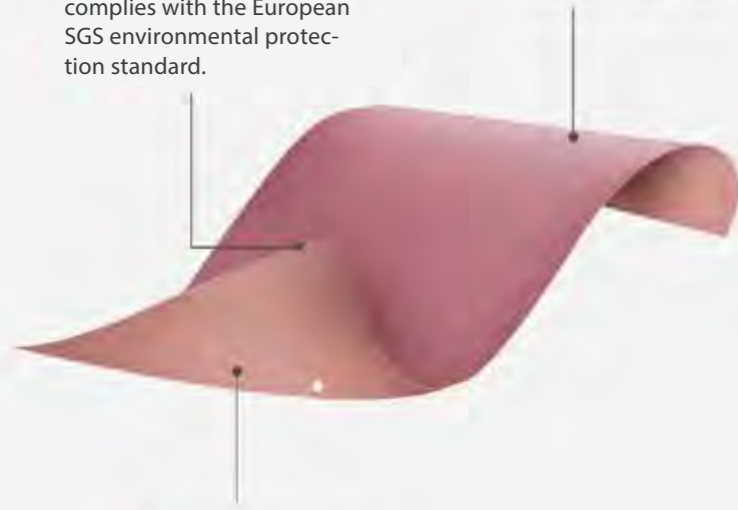

We consider environmental protection when designing products. To reduce the impact of products on the environment. Meet the requirements of energy conservation and emission reduction, reduce energy consumption and carbon emissions.

SKIN-FEEL LEATHER MATERIAL

② It has been tested and complies with the European SGS environmental protection standard.

① The product adopts skin-feel leather material, which feels soft, delicate, and smooth to the touch.

③ The bottom fiber is Japanese Island fiber, which has high elasticity and stronger wrapping power than traditional PU and PVC leather.

TECHNOLOGY

④ High flexural strength. It can be bent up to 200,000 times without cracks at room temperature, and 30,000 times without cracks at low temperature (-20℃).

PLANNER & NOTEBOOK

Each genuine leather planner is a perfect embodiment of quality and artistry. From the moment you touch it, the smooth and silky texture speaks of tranquility and the passage of time. Its softness is not just a unique charm of the leather, but a crystallization of craftsmanship and meticulous care, telling a story with every gentle stroke. Specially noteworthy is the selection of soft oil-waxed leather for the outer cover of this planner. This leather undergoes a special oil-wax treatment, resulting in not only a more refined touch but also exceptional wear resistance and water repellency. It maintains its gloss and elasticity over prolonged use, making your planners both practical and durable.
